Definitions

Sheriff's Advisement- Will be sent to all local radio and news stations, Public Information Officer Plumas County, Local OES Director, Fire Departments in the affected area, and the Chips Incident Command Team. Due to the Chips Fire and its behavior the above listed communities are under a Sheriff's Advisement. Residents are encouraged to make an evacuation plan, to include the gathering of photos, important documents and priceless keepsakes. Please discuss with your family a location you will travel to, should the need arise to evacuate. Ensure you have also made arrangements for the care and safekeeping of your pets.

Sheriff's Voluntary Evacuation- Due to the potential threat to life and property by a wild land fire, residents are encouraged to leave the area. The area will be staffed by Law Enforcement and residents will be advised of the threat, but no road closures for residents living in the area. The general public **will not** be allowed in the area "**Soft Closure**".

Sheriff's Mandatory Evacuation- Due to fire behavior and/or proximity to the wild land fire, residents are in imminent danger or the potential for imminent danger exists. Residents are encouraged to leave the area and road closures will be in effect for all roads around the evacuated area. These closures are "**hard closures**" residents and the general public **will not** be allowed back and/or escorted into the area until the evacuation is lifted "**Hard Closures**" to the local highways could also be established for the safety of fire personnel in the area. If "**hard closures**" are established it is a "**Sheriff's Mandatory Evacuation**", due to the fact that the general public will not be allowed free access and therefore can not adequately maintain food, supplies, medicine, etc.
