Dear Honorable Board of Supervisors,

I just watched the video of the March 5 board meeting with Julie White's attorney asking the board for payment of his fees. Julie White has had trouble doing her job, that is the issue. It's not fair to turn this around and accuse Debra Lucero, who is only doing her job. Julie White doesn't like that it has been brought to her attention that people are not pleased with her performance.

This feels like extortion to make this attorney go away. I found him to be condescending, arrogant, and off topic. It is the tourism association that is frustrated with Julie White's lack of timely payments, and correct amounts. Add to that, her impediment to the formation of the tourism business district, because I believe she knew she couldn't do what would be asked of her, because she was already unable to adequately do her job in the first place.

This is all because of Julie White's inability to perform the duties of her job that has brought this condescending arrogant buffoon to the board room asking for money. I was so angry watching the video, I don't know how any of you were able to remain composed. I urge you to not give any tax payer money to this attorney, or his firm.

I would rather money be spent to help Julie White do her job, whatever that involves.

Sincerely,

Shelley Hunter
