

## **BOS Meeting – May 21, 2024**

### **Business and Economic Development**

**Today, the Indian Valley Innovation HUB is distributing its bi-monthly Newsletter with articles and stats related to business and economic development. There are pertinent articles ranging from unemployment stats to Profit and Loss Statements to upcoming workshops and webinars for the public to participate in. The report on the Plumas County's Intervention and Resource Center on the Dragon Fly Café Initiative – Empowerment through Entrepreneurship is very interesting and encouraging.**

**Our main presentation today is a 2 to 3 - minute report from each of the four Plumas County Chambers of Commerce. These reports come from their respective leaders that include:**

- **Major events that bring commerce to their communities.**
- **Goals, objectives, and accomplishments.**
- **Welcoming new businesses to their community and supporting the ones already there.**

**These are the leaders that work year after year, are concerned with our future, and our doing something about it. I have picked them randomly to present:**

- **Lost Sierra Chamber**
- **Lake Almanor Area Chamber**
- **Indian Valley Chamber**
- **Quincy Chamber**

**While their time is limited, I encourage the BOS and the CAO to make comments or ask questions.**

**I will ask the representatives to each introduce themselves as they present.**

**Thank you.**

**Clint Koble, Hamilton Branch**
