**Notes:**

\*Hourly rates are estimates and may vary depending on the classification of the employee performing the service.

1 - These reports include: Traffic Studies, Grading Plans, Erosion Control Plans, Flood Studies, Drainage Studies and Geotechnical Reports.

2 - A deposit will be collected at the time the application fee is accepted. The Public Works Department shall keep records of the time and expenses incurred in the processing of these applications and charge Developer on a time and material basis. These monies will be deposited in a special account, from which the County will draw sums to cover the costs of the application review. The Public Works Department shall provide to the developer a monthly invoice detailing the work performed and the time spent by its staff or outside consultants on such work, together with the hourly rates charged by individuals performing the work. The invoice amount shall not exceed the actual cost to the Public Works Department to provide the work described. The County may withdraw funds from the funds deposits in the special account in the amount of each invoice. In the event that it appears likely the deposit made by developer will be exhausted, the Public Works Department shall provide the developer with a new estimate of the cost to complete the processing of the application. The developer shall replenish the special account in the amount of such new estimate within fifteen (15) days. Developer's failure to make payment shall be deemed a withdrawal or abandonment of the application, but such withdrawal or abandonment shall not relieve the developer of the obligation to pay for work done by County in response to the application or to wind up work as a result of withdrawal or abandonment.

3- County Engineer's hourly rate

4 - Mileage reimbursement rate established by the IRS Mileage Reimbursement Rate. Mileage is billed for any application which requires an on-site inspection or field review.

5 - Filing and recording costs will be calculated during review of project; recording costs and reproduction copy costs will be calculated based on page count and current fee schedule and must be collected prior to completion of project. ("project" is defined as any Engineering application that requires recording with the Plumas County Clerk Recorders office and/or reproduction copies of large format documents)

6 - Copies made beyond those estimated by the fee schedule will be charged to the customer.
