No Grinding
Required

Clean,
Fast Burns

Produces Electric
& Thermal Energy

EV Battery
Charging Station

BIOCHARGER

Air Burners® BioCharger® levels the field in the fight against climate change. It converts wood and vegetative waste into nutrient-rich biochar while generating power to charge electric vehicles, equipment, and tools onsite. The revolutionary self-contained energy solution closes the loop so you can get the job done off-grid. Developed in collaboration with **Volvo Construction Equipment** and **Rolls Royce**, the BioCharger is the green-friendly, cost-effective answer to eliminate and convert green waste to renewable energy and keep your operation fully charged and ready to work.
