## INDEPENDENT AUDITOR'S REPORT

To the Board of Supervisors and Grand Jury  
County of Plumas  
Quincy, California

### **Report on the Audit of the Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County of Plumas, California (County), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

To the Board of Supervisors and Grand Jury  
County of Plumas  
Quincy, California

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

To the Board of Supervisors and Grand Jury  
County of Plumas  
Quincy, California

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, County Pension Plan, County OPEB Plan, and budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Information**

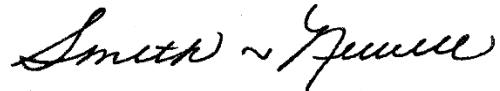

Management is responsible for the other information included in the annual report. The other information comprises the introductory section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

To the Board of Supervisors and Grand Jury  
County of Plumas  
Quincy, California

**Other Reporting Required by Government Auditing Standards**

In accordance with Government Auditing Standards, we have also issued our report dated December 12, 2025, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the County's internal control over financial reporting and compliance.

(Unaudited)**

**COUNTY OF PLUMAS**  
**Management's Discussion and Analysis**  
**For the Year Ended June 30, 2023**

As management of the County of Plumas, California, (County) we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2023. We encourage readers to consider the information presented here in conjunction with additional information in our financial statements.

## **FINANCIAL HIGHLIGHTS**

- The assets of the County exceeded liabilities at the close of the 2022-23 fiscal year by \$111,298,646 (net position). Of this amount, (\$16,498,044) (*unrestricted net position*) may be used to meet ongoing obligations to citizens and creditors, \$70,244,143 is restricted for specific purposes (*restricted net position*), and \$57,552,547 is the net investment in capital assets.
- The County governmental funds reported combined fund balances of \$92,862,646, an increase of \$20,024,078 in comparison with the prior year.
- The County's unassigned fund balance for the General fund was \$8,604,478 or 31.0 percent of total General fund expenditures, a decrease of 11.8 percent from the prior year's unassigned to expenditure ratio.
- The County's net investment in capital assets increased by \$8,334,170.
- The County's total long-term debt increased by \$27,904,592 in comparison with the prior year due primarily to an increase in the net pension liability of \$28,074,998 and an increase in the net OPEB liability of \$865,415.

## **PRESENTATION CHANGES FROM PREVIOUS FINANCIAL STATEMENTS TO NOTE**

There were a couple of major changes in the presentation of the County's financial statements. First, there is one new major fund, Pacific Gas & Electric Dixie Fire Settlement, in this year's County financial statements. Second, the new Subscription Based Information Technology Arrangements (SBITA) standard was incorporated in both the capital assets section as Right-to-use SBITA assets and the long-term liabilities section as SBITA. These complete the major changes in the presentation of the County's financial statements.

## **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components 1) **Government-Wide** financial statements, 2) **Fund** financial statements and 3) **Notes** to the basic financial statements. Required Supplementary Information is included in addition to the basic financial statements.

**Government-Wide Financial Statements** are designed to provide readers with a broad overview of County finances, in a manner similar to a private-sector business.

<sup>o</sup> The **Statement of Net Position** presents information on all County assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

<sup>o</sup> The **Statement of Activities** presents information showing how net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this

**COUNTY OF PLUMAS**  
**Management's Discussion and Analysis**  
**For the Year Ended June 30, 2023**

statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of these government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or in part a portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, public protection, public ways and facilities, health and welfare, public assistance, education and recreation. The business-type activities of the County include airport, transit, and solid waste operations.

Component units are included in our basic financial statements and consist of legally separate entities for which the County is financially accountable and that have substantially the same board as the County or provide services entirely to the County. The component units are blended special revenue funds and include County Fair, Air Pollution, Crescent Mills Lighting, Quincy Lighting, Beckwourth CSA Sewer, Flood Control, CSA #11 Ambulance, Walker Ranch CSD, CSA #12 Plumas County Transit, and County of Plumas Public Facilities Corporation.

**Fund Financial Statements** are groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate finance-related legal compliance. All the funds of the County can be divided into three categories: *governmental funds (special revenue, capital project and debt service)*, *proprietary funds (enterprise and internal service)*, and *fiduciary funds (school, trial courts, special districts, County departmental agencies and accrued trust funds)*.

**Governmental funds** are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows* of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains governmental funds organized according to their type—special revenue, capital projects and debt service. The County segregates from the General fund a number of significant functions in major funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General fund, Road, Local Revenue 2011, Social Services, Mental Health, Public Health, Pacific Gas and Electric Dixie Fire Settlement and Capital Improvement all of which are considered to be major funds.

Data from other governmental funds is provided in the form of combining statements located in the Combining Nonmajor Fund Financial Statements section of this report.

**COUNTY OF PLUMAS**  
**Management's Discussion and Analysis**  
**For the Year Ended June 30, 2023**

**Proprietary funds** are maintained in two ways. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for the airport, solid waste disposal, and transit. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its self-insurance such as worker's compensation, unemployment, and liability insurance and OPEB. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Airport Operation and Solid Waste Planning and Operation funds are considered to be major funds of the County. The County's three internal service funds are combined into a single, aggregated presentation in the proprietary funds financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

**Fiduciary funds** are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

**Notes to the Basic Financial Statements** provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Required Supplementary Information** is presented concerning the County General fund and major special revenue funds budgetary schedules and actuarial information related to the County's retirement and retiree healthcare plans. The County adopts an annual appropriated budget for its General fund and major special revenue funds. A budgetary comparison schedule has been provided for the General fund and major special revenue funds to demonstrate compliance with this budget.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the County, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$111,298,646 at the close of the most recent fiscal year.

Unrestricted net position represents the assets available to meet the County's ongoing obligations to citizens and creditors. The County's unrestricted net position is (\$16,498,044). A portion of the County's restricted net position, \$70,244,143 can be used to meet the County's on-going obligations but are restricted in how they are used because they have been received for a specific purpose, such as State and Federal grants and debt service.

Another significant portion of the County's net position, \$57,552,547 reflects its net investment in capital assets (e.g. land and easements, structures and improvements, infrastructure, and equipment), less any related debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The County's net position increased by \$30,331,635 during the current fiscal year. This increase is due to ongoing revenues exceeding ongoing expenses, the largest being the increase in restricted net position of \$14,077,990. The increase in the restricted net position represents an increase in both federal and state intergovernmental revenues over the prior year.

#### FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The general government functions are contained in the General, Special Revenue, Capital Project and Debt Service funds. Included in these funds are the special districts governed by the Board of Supervisors. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, the unassigned fund balance in the General fund and restricted fund balance in the other governmental funds may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

**COUNTY OF PLUMAS**  
**Management's Discussion and Analysis**  
**For the Year Ended June 30, 2023**

At June 30, 2023, the County's governmental funds reported combined fund balances of \$92,862,646, an increase of \$20,024,078 in comparison with the prior year. Of these combined fund balances, \$8,024,983 constitutes net unassigned, \$75,507,896 restricted, and \$5,758,134 assigned for special purposes in the General and Special Revenue funds, which is available to meet the County's current and future needs. The remainder of the fund balance is not available for new spending because it has been committed for future use, \$3,052,861, or is in nonspendable form, \$518,772.

The General fund is the chief operating fund of the County. At June 30, 2023, unassigned fund balance was \$8,604,478 while total fund balance was \$26,269,462. As a measure of the General fund's liquidity, it may be useful to compare both unassigned and total fund balance to total fund expenditures. Unassigned fund balance represents 31.0 percent of total General fund expenditures, while the total fund balance represents 94.7 percent of total General fund expenditures.

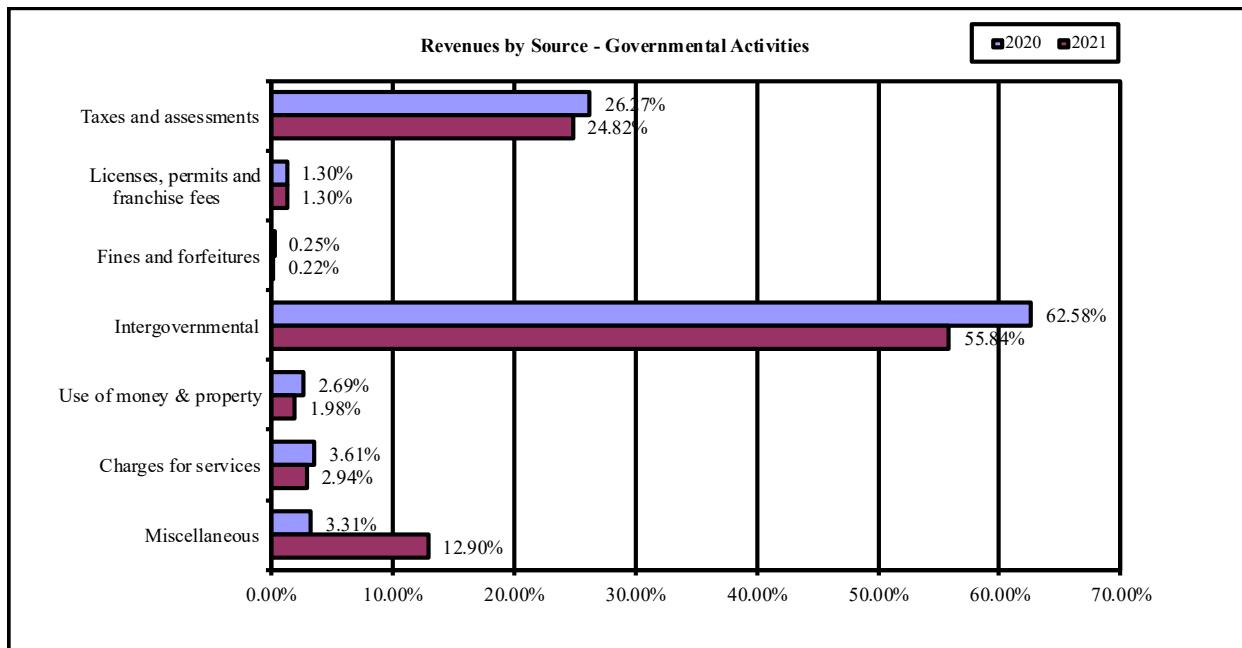

The major funds and other governmental funds' fund balances increased from \$52,452,305 to \$66,593,184. The major and other governmental funds had decreases/increases in fund balance as follows: Road increased by \$1,320,434, Local Revenue 2011 increased by \$2,738,374, Social Services increased by \$492,518, Mental Health increased by \$218,133, Public Health decreased by \$549,247, Pacific Gas and Electric Dixie Fire Settlement increased by \$10,221,383, Capital Improvement decreased by \$2,023,755 and other non-major governmental funds increased by \$1,723,039.

The following table presents the amount of revenues from various sources as well as increases or decreases from the prior year.

Unrestricted net position of the internal service funds at June 30, 2023, was \$5,271,879, a decrease of \$2,013,101. This was largely attributable to the County's self-funded insurance funds. The County's claims paid increased significantly over last year. Both liability and workers' comp are funded at the 80 percent or higher confidence level as recommended.

### GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year the Board of Supervisors revises the County's budget many times. Each time a grant or specific revenue enhancement is made available to a County program that requires new appropriations, a budget amendment is required.

The mid-year review is a formal process by which each department is analyzed for expense and revenue trends. Adjustments are recommended where indicated and monitored for the remainder of the year. Unless there is an unforeseen and unusual circumstance that causes a budget overrun, a draw on the Contingency Reserve is not recommended.

**Budget Officer's Economic Factors and Next Year's Budget**

The 2022/23 budget reflected higher fund balances and one-time funds; travel has been reinstated and capital asset purchases were budgeted on need. Salary increases were reflected in several bargaining units, and one-time funds were committed to fund an 85/15 split in employee health coverage. The County had close to 50 allocated positions unfilled, recruitment was challenging due to salaries, benefits and housing being the leading issues. The County is still recovering from the Dixie Fire, COVID-19 and heavy employee turnover and will be for the near future.

The 2023/24 budget reflected higher appropriations focused on employee staffing, salaries and benefits, department technology, financial process improvements, and capital projects, including the new jail facility and a future energy project to address ever increasing utility costs. The commitment to use one-time funds to fund an 85/15 split for employee health coverage was continued. The County continues its slow recovery from the Dixie Fire, COVID-19, and heavy employee turnover.

**Government-Wide Statement of Activities - Governmental Activities**  
**For the Year Ended June 30, 2023**

**Net Change in Fund Balances - Total Governmental Funds** \$ 20,024,078

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlay as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Expenditures for capital outlay	11,988,781
Less current year depreciation	(2,897,145)
Contributions of capital assets	264,620

Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the Statement of Activities, a gain or loss is reported for each disposal. This is the net cost of capital assets disposed. Proceeds from the sale of capital assets was \$6,244.

(852,119)

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.

Principal retirements	790,000
Right-to-use capital asset liability retirements	120,301
Subscription-based information technology arrangement retirements	118,192
Proceeds related to right-to-use capital assets liability	(215,275)
Proceeds related to subscription-based information technology arrangements	(345,346)

Some revenues reported in the Statement of Activities will not be collected for several months after the County's year end and do not provide current financial resources and therefore, are not reported as revenues in the governmental funds.

Change in accounts receivable related to legal settlement	(1,000,000)
Change in unavailable revenue	2,817,514

Certain changes in deferred outflows and deferred inflows of resources reported in the Statement of Activities relate to long-term liabilities and are not reported in the governmental funds.

Change in deferred outflows of resources related to pension	11,866,907
Change in deferred inflows of resources related to pension	17,717,742
Change in deferred outflows of resources related to OPEB	236,956
Change in deferred inflows of resources related to OPEB	519,366

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in the governmental funds.

Change in compensated absences	832,920
Change in net pension liability	(27,801,462)
Change in net OPEB liability	(856,642)

Internal service funds are used by management to charge the cost of certain activities, such as insurance and equipment maintenance and operations, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.

**THIS PAGE INTENTIONALLY LEFT BLANK**

**COUNTY OF PLUMAS**  
**Notes to Basic Financial Statements**  
**For the Year Ended June 30, 2023**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

The County operates under an Administrator-Board of Supervisors form of government and provides various services on a county-wide basis including law and justice, education, detention, social services and health, fire protection, road construction, road maintenance, transportation, park and recreation facilities, elections and records, communications, planning, zoning, and tax collection.

**Component Units**

Generally accepted accounting principles require government financial statements to include the primary government and its component units. Component units of a governmental entity are legally separate entities for which the primary government is considered to be financially accountable and for which the nature and significance of their relationship with the primary government are such that exclusion would cause the combined financial statements to be misleading. The primary government is considered to be financially accountable if it appoints a majority of an organization's governing body and is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on the primary government.

Reporting for component units on the County's financial statements can be blended or discretely presented. Blended component units are, although legally separate entities, in substance part of the County's operations and, therefore, data from these units are combined with data of the primary government. Discretely presented component units, on the other hand, would be reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the government.

For financial reporting purposes, the County's basic financial statements include all financial activities that are controlled by or are dependent upon actions taken by the Board of Supervisors. The financial statements of the individual component units may be obtained by writing to the County of Plumas, Auditor-Controller's Office, 520 W. Main Street, Quincy, CA 95971.

**Blended Component Units**

*County Fair* - The County Fair was established by the County Board of Supervisors. The Fair Board is composed of members appointed by the County's Board of Supervisors. The County elected officials have a continuing full or partial oversight responsibility over and accountability for fiscal matters of the fair. As an integral part of the County, the County fair is reported as a nonmajor special revenue fund in the County's financial statements.

*Special Districts Governed by the Board of Supervisors* - The County Board of Supervisors is the governing body of a number of special purpose district funds. Among its duties, the County Board of Supervisors approves the budgets, special taxes and fees and all payments of these special districts. As an integral part of the County, the special districts are reported as nonmajor special revenue funds in the County's financial statements.

**Blended Component Units (Continued)**

*CSA #12 Plumas County Transit* - The CSA #12 Plumas County Transit was established June 1, 1982 to provide transportation services for the County. The County Board of Supervisors is the governing body of this fund and approves all payments. As an integral part of the County, this fund is reported as a nonmajor enterprise fund in the County's financial statements.

*County of Plumas Public Facilities Corporation* - The Corporation was originally established in 2002 as a nonprofit public benefit corporation. The Corporation was reorganized in 2015 to refinance certificates of participation previously issued. The Corporation was created for the purpose of providing financing for public capital improvements owned and operated by the County. The Corporation is the lessor for the County's Umpqua Bank Loan and makes debt service payments on behalf of the County. The Board of Supervisors is the governing body of the Corporation and because its financial and operational relationship with the County is closely integrated, the activity and debt of the Corporation is reported in the County financial statements and the Corporation does not issue separate financial statements.

**Discretely Presented Component Units**

There are no component units of the County which meet the criteria for discrete presentation.

**Related Organizations**

*Plumas County Community Development Commission* - The Plumas County Community Development Commission (PCCDC) was established to operate and to govern the Housing Authority and the Community Development Commission. PCCDC is considered to be a related organization to the County of Plumas.

**Joint Agencies**

The County is a participant in Trindel Insurance Fund (Trindel) the purpose of which is to provide for the creation and operation of a common risk sharing and insurance purchasing pool to be used to meet the obligations of the member counties to provide Worker's Compensation benefits for their employees and to provide public liability and property damage insurance for its members. Trindel is governed by a Joint Powers Agreement between the member counties pursuant to Article 1 (commencing with Section 6500), Chapter 5 of Division 7, Title 1 of the Government Code of California. Complete audited financial statements can be obtained from their office at 51 Arbuckle Court, Weaverville, CA 96093. The County is not financially accountable for this organization and therefore it is not a component unit under Statement Nos. 14, 39 and 61 of the Governmental Accounting Standards Board.

The County is a member of the Public Risk Innovation, Solutions, and Management (PRISM). PRISM is a joint powers authority organized for the purpose of developing and funding excess insurance programs for member counties. PRISM operates public entity risk pools for workers' compensation, comprehensive liability, property, and medical malpractice, and the pool purchases excess insurance and services for members. PRISM is under the control and direction of a board of directors consisting of representatives of each of the 55 member counties. Complete audited financial statements can be obtained from PRISM's office at 75 Iron Point Circle, Suite 200, Folsom, CA 95630. The County is not financially accountable for this organization and therefore it is not a component unit under Statement Nos. 14, 39 and 61 of the Governmental Accounting Standards Board.

**B. Basis of Presentation**

**Government-Wide Financial Statements**

The Statement of Net Position and Statement of Activities display information on all of the nonfiduciary activities of the County and its blended component units. These statements include the financial activities of the overall government, except fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Interfund services provided and used are not eliminated in the process of consolidation. These statements distinguish between the governmental and business-type activities of the County. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties.

The Statement of Activities presents a comparison between direct expenses and program revenues for each different identifiable activity of the County's business-type activities and each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and therefore, are clearly identifiable to a particular function. Certain indirect costs, which cannot be identified and broken down, are included in the program expense reported for individual functions and activities. Program revenues include 1) charges paid by the recipients of goods and services offered by the program, 2) operating grants and contributions, and 3) capital grants and contributions. Taxes and other items not properly included among program revenues are presented instead as general revenues.

**Fund Financial Statements**

The fund financial statements provide information about the County's funds, including fiduciary funds and blended component units. Funds are organized into three major categories: governmental, proprietary and fiduciary. The emphasis is placed on major funds within the governmental and proprietary categories; each is displayed in a separate column. All remaining governmental and proprietary funds are separately aggregated and reported as nonmajor funds.

The County reports the following major governmental funds:

- The General fund is used to account for all revenues and expenditures necessary to carry out basic governmental activities of the County that are not accounted for through other funds. For the County, the General fund includes such activities as public protection, public ways and facilities, health and welfare, public assistance, education, and recreation services.
- The Road fund is a special revenue fund used to account for revenues and expenditures for streets and road expansion. Funding comes primarily from state highway users tax and state and federal highway improvement grants.
- The Local Revenue 2011 fund is a special revenue fund used to account for revenues and expenditures related to realignment funding. Funding comes primarily from state realignment revenues.
- The Social Services fund is a special revenue fund used to account for revenues and expenditures for social welfare. Funding comes primarily from state and federal grant revenues.

**B. Basis of Presentation (Continued)**

**Fund Financial Statements (Continued)**

- The Mental Health fund is a special revenue fund used to account for revenues and expenditures for mental health programs. Funding comes primarily from state grant revenue.
- The Public Health fund is a special revenue fund used to account for revenues and expenditures for public health programs. Funding comes primarily from federal and state grant revenue.
- The Pacific Gas and Electric Dixie Fire Settlement fund is a special revenue fund used to account for revenues and expenditures related to the legal settlement from Pacific Gas and Electric for the Dixie Fire. Funding comes primarily from legal settlement proceeds.
- The Capital Improvement fund is a debt service fund used to account for revenue and expenditures for capital improvements and related debt service payments. Funding comes primarily from federal and state grant revenue.

The County reports the following major proprietary funds:

- The Airport fund is an enterprise fund used to account for activity related to providing customers with airport facilities and services.
- The Solid Waste Planning and Operation fund is an enterprise fund used to account for activity related to providing customers with solid waste service.

The County reports the following additional fund types:

- Internal Service funds account for the County's self-insurance programs which provide services to other departments on a cost reimbursement basis.
- Investment Trust funds account for the external portion of the County's Investment Pool which commingles resources of legally separate local governments within the County in an investment portfolio for the benefit of all participants. These entities include school districts, trial courts and other special districts governed by local boards, regional boards, and authorities. These funds represent the assets, primarily cash and investments, and the related liability of the County to disburse these monies on demand.
- Custodial funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds. These include unapportioned property taxes and other custodial funds.

**Notes to Basic Financial Statements**  
**For the Year Ended June 30, 2023**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**C. Basis of Accounting and Measurement Focus**

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales tax, grants, entitlements, and donations. Under the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from sales tax are recognized when the underlying transactions take place. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Property and sales taxes, interest, certain state and federal grants, and charges for services are considered susceptible to accrual and are accrued when their receipt occurs within sixty days after the end of the fiscal year. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to claims and judgments are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in the various functions of the governmental funds. Proceeds of governmental long-term debt and acquisitions under leases are reported as other financing sources.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise and internal service funds are charges to customers for sales and services. Operating expenses for enterprise and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Fiduciary funds include investment trust funds and custodial funds. All investment trust funds are reported using the economic resources measurement focus and the accrual basis of accounting. Custodial funds are reported using the accrual basis of accounting to recognize receivables and payables.

**D. Non-Current Governmental Assets/Liabilities**

Non-current governmental assets and liabilities, such as capital assets and long-term liabilities, are reported in the governmental activities column in the government-wide Statement of Net Position.

**E. Cash and Cash Equivalents**

For purposes of the accompanying Statement of Cash Flows, the County considers all highly liquid investments, including restricted cash and investments and cash with fiscal agent, with a maturity of three months or less when purchased and their equity in the County Treasurer's investment pool, to be cash equivalents.

**COUNTY OF PLUMAS**  
**Notes to Basic Financial Statements**  
**For the Year Ended June 30, 2023**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**F. Investments**

The County sponsors an investment pool that is managed by the County Treasurer. The County's pool activity is governed by California Government Code Sections 27000.1 and 53607, as well as the County's investment policy.

Investment transactions are recorded on the trade date. The fair value of investments is determined annually. Investments in nonparticipating interest-earning investment contracts are reported at cost; short-term investments are reported at amortized cost, investments in the State of California Local Agency Investment Fund, an external pool, are reported at amortized cost which approximates fair value, and the fair value of all other investments are obtained by using quotations obtained from independent published sources or by the safekeeping institution. The fair value represents the amount the County could reasonably expect to receive for an investment in a current sale between a willing buyer and seller.

Participant's equity in the investment pool is determined by the dollar amount of participant deposits, adjusted for withdrawals and distributed investment income. Investment income is determined on an amortized cost basis. Interest payments, accrued interest, accreted discounts, amortized premiums, and realized capital gains and losses, net of administrative fees, are apportioned to pool participants every quarter. This method differs from the fair value method used to value investments in these financial statements as unrealized gains or losses are not apportioned to pool participants. During the fiscal year ended June 30, 2023, the County Treasurer has not entered into any legally binding guarantees to support the value of participant equity in the investment pool.

Income from pooled investments is allocated to the individual funds or external participants based on the fund or participant's average daily cash balance at quarter end in relation to the total pool investments. Interest income earned in fiduciary funds where there are no interest earnings requirements are assigned to the General fund per County Policy. Income from non-pooled investments is recorded based on the specific investments held by the fund.

**G. Restricted Cash and Investments**

The County reports restricted cash and investments of \$3,271,708 held in the Solid Waste Planning and Operation fund to fund closure and post-closure costs.

**H. Receivables**

Receivables for governmental activities consist mainly of accounts, interest, taxes, intergovernmental, and lease revenues. Management believes its receivables are fully collectible and, accordingly, no allowance for doubtful accounts is required.

Receivables for business-type activities consist mainly of user fees, interest, intergovernmental, and lease revenues. Management believes its receivables are fully collectible and, accordingly, no allowance for doubtful accounts is required.

**COUNTY OF PLUMAS**  
**Notes to Basic Financial Statements**  
**For the Year Ended June 30, 2023**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**I. Other Assets**

**Inventory**

Inventories are stated at cost (first-in, first-out basis) for governmental funds and proprietary funds. Inventory recorded by governmental funds includes postage and materials and supplies for roads and are recorded as expenditures at the time the inventory is consumed. Inventory recorded by proprietary funds includes fuel for the Airport and is recorded as expenses at the time the inventory is consumed.

**Prepaid Costs**

Payments made for services that will benefit periods beyond June 30, 2023, are recorded as prepaid costs under both the accrual and modified accrual basis of accounting. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

**J. Capital Assets**

Capital assets, including public domain (infrastructure such as roads, bridges, sidewalks, sewer, and similar items) are defined by the County as assets with a cost of more than \$5,000 and an estimated useful life of more than five years. Capital assets are recorded at historical cost or estimated historical cost if actual historical cost is unavailable. Contributed capital assets are recorded at their acquisition value at the date of donation.

Infrastructure assets, including bridges and roads, have been stated at estimated historical cost. Estimated historical cost for bridges was arrived at by developing a listing of all bridges constructed after 1980. Using the year constructed, width, and length of the bridges, the estimated historical cost was calculated. Estimated historical cost for roads was arrived at by developing a list of all roads located within the County. Each road was identified by type, paved/flat, paved/hillside, and graveled. The current cost assigned to each road was factored back to the year of construction using the federal-aid highway construction factors to arrive at an estimated historical cost for each road.

Capital assets used in operations are depreciated or amortized using the straight-line method over the assets' estimated useful lives in the government-wide financial statements. The range of estimated useful lives by type of asset is as follows:

<u>Depreciable Asset</u>	<u>Estimated Lives</u>
Equipment	5 to 25 years
Structures and improvements	5 to 50 years
Infrastructure	30 to 50 years

Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

**K. Property Tax**

The State of California's (State) Constitution Article XIII A provides that the combined maximum property tax rate on any given property may not exceed 1 percent of its assessed value unless an additional amount for general obligation debt has been approved by voters. Assessed value is calculated at 100 percent of market value, as defined by Article XIII A, and may be adjusted by no more than 2 percent per fiscal year unless the property is sold or transferred. The State Legislature has determined the method of distribution of receipts from a 1 percent tax levy among the County, cities, school districts, and other districts.

The County of Plumas is responsible for assessing, collecting, and distributing property taxes in accordance with State law. Property taxes are levied on both secured (real property) and unsecured (personal property other than land and buildings) property. Supplemental property taxes are assessed upon transfer of ownership in property or completion of new construction.

The County levies, bills, and collects taxes as follows:

	<u>Secured</u>	<u>Unsecured</u>
Valuation/lien dates	January 1	January 1
Due dates	November 1 (1 <sup>st</sup> installment) February 1 (2 <sup>nd</sup> installment)	July 1
Delinquent dates	December 10 (1 <sup>st</sup> installment) April 10 (2 <sup>nd</sup> installment)	August 31

The County of Plumas apportions secured property tax revenue in accordance with the alternate method of distribution, the "Teeter Plan", as prescribed by Sections 4701 through 4717 of the California Revenue and Taxation code. Under the Teeter Plan, the County allocates to local taxing agencies 100 percent of the secured property taxes billed. In return, the County retains penalties and interest on delinquent secured taxes in the Tax Loss Reserve Fund (TLRF). The primary purpose of TLRF is to cover losses that may occur as a result of special sales of tax-defaulted property.

The County is legally required to maintain a minimum balance of 1 percent of the annual taxes levied on properties participating in the Teeter Plan. The balance in the TLRF was \$569,420 at June 30, 2023. The County's management believes that any ownership rights to the TLRF the County may have are effective only upon a Board approved transfer or to the extent of losses related to the sale of tax defaulted property. Amounts in the TLRF are considered to be held in a custodial capacity for the participants in the County's Teeter Plan and accounted for in a custodial fund.

**L. Interfund Transactions**

Interfund transactions are reflected as either loans, services provided or used, reimbursements or transfers.

Loans reported as receivables and payables are referred to as either "due from/to other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans) as appropriate and are subject to elimination upon consolidation. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances". Advances between funds, as reported in the fund financial statements, are offset by a nonspendable fund balance account in applicable governmental funds to indicate that they are not in spendable form.

**Notes to Basic Financial Statements**  
**For the Year Ended June 30, 2023**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**L. Interfund Transactions (Continued)**

Services provided or used, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. These services provide information on the net cost of each government function and therefore are not eliminated in the process of preparing the government-wide Statement of Activities.

Reimbursements occur when the funds responsible for particular expenditures or expenses repay the funds that initially paid for them. Such reimbursements are reflected as expenditures or expenses in the reimbursing fund and reductions to expenditures or expenses in the reimbursed fund.

All other interfund transactions are treated as transfers. Transfers between funds are netted as part of the reconciliation to the government-wide presentation.

**M. Unearned Revenue**

Under the accrual and modified accrual basis of accounting, revenue may be recognized only when it is earned. When assets are recognized in connection with a transaction before the earnings process is complete, those assets are offset by a corresponding liability for unearned revenue.

**N. Compensated Absences**

It is the County's policy to permit employees to accumulate earned but unused vacation and other leave obligations. In the government-wide financial statements, the accrued compensated absences is recorded as an expense and related liability, with the current portion estimated based on historical trends. In the governmental fund financial statements, the expenditures and liabilities related to those obligations are recognized only when they mature. In the proprietary funds the accrued compensated absences is recorded as an expense and related liability in the year earned. The County includes its share of social security and medicare taxes payable on behalf of the employees in the accrual for compensated absences.

**O. Pensions**

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County's California Public Employees' Retirement System (CalPERS) plan (Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
Measurement Period	July 1, 2021, to June 30, 2022

**P. Other Postemployment Benefits (OPEB)**

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the County's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date	July 1, 2022
Measurement Date	June 30, 2023
Measurement Period	July 1, 2022, to June 30, 2023

**Q. Deferred Outflows/Inflows of Resources**

In addition to assets, the Statement of Financial Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has two items which qualify for reporting in this category. These items relate to the outflows from changes in the net pension liability and net OPEB liability and are reportable on the Statement of Net Position.

In addition to liabilities, the Statement of Financial Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The County has four types of items which qualify for reporting in this category. The first item, unavailable revenue, is reported only on the governmental funds balance sheet. The governmental funds report unavailable revenues for receivables that have not been received within the modified accrual period. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The second and third items relate to the inflows from changes in the net pension liability and net OPEB liability and are reportable on the Statement of Net Position. The fourth item relates to deferred inflows from leases receivable.

**R. Estimates**

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**S. Implementation of Governmental Accounting Standards Board (GASB) Statements**

The following Governmental Accounting Standards Board (GASB) Statements have been implemented, if applicable, in the current financial statements.

**Statement No. 91**, Conduit Debt Obligations. This statement improves the comparability of financial reporting for issuers by eliminating the option to recognize a liability for a conduit debt obligation.

**S. Implementation of Governmental Accounting Standards Board (GASB) Statements (Continued)**

**Statement No. 94**, Public-Private and Public-Public Partnerships and Availability Payment Arrangements. This statement will improve financial reporting by establishing the definitions of PPPs and APAs and providing uniform guidance on accounting and financial reporting for transactions that meet those definitions.

**Statement No. 96**, Subscription-Based Information Technology Arrangements. This statement will improve financial reporting by establishing a definition for SBITAs and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. The definition and uniform guidance will result in greater consistency in practice.

**Statement No. 99**, Omnibus 2022. This statement will enhance comparability in the application of accounting and financial reporting requirements and will improve the consistency of authoritative literature. Consistent authoritative literature enables governments and other stakeholders to more easily locate and apply the correct accounting and financial reporting provisions, which improves the consistency with which such provisions are applied. The comparability of financial statements also will improve as a result of this Statement. Better consistency and comparability improve the usefulness of information for users of state and local government financial statements.

**T. Future Accounting Pronouncements**

The following GASB Statements will be implemented, if applicable, in future financial statements:

Statement No. 99 “Omnibus 2022” The requirements of this statement related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 are effective for fiscal years beginning after June 15, 2023. (FY 23/24)

Statement No. 100 “Accounting Changes and Error Corrections – an amendment of GASB Statement No. 62” The requirements of this statement are effective for fiscal years beginning after June 15, 2023. (FY 23/24)

Statement No. 101 “Compensated Absences” The requirements of this statement are effective for fiscal years beginning after December 15, 2023. (FY 24/25)

Statement No. 102 “Certain Risk Disclosures” The requirements of this statement are effective for fiscal years beginning after June 15, 2024. (FY 24/25)

Statement No. 103 “Financial Reporting Model Improvements” The requirements of this statement are effective for fiscal years beginning after June 15, 2025. (FY 25/26)

Statement No. 104 “Disclosure of Certain Capital Assets” The requirements of this statement are effective for fiscal years beginning after June 15, 2025. (FY 25/26)

**B. Rebatable Arbitrage**

The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years. At June 30, 2023, the County does not expect to incur a liability.

**NOTE 3: CASH AND INVESTMENTS**

The County Treasurer manages, in accordance with California Government Code Section 53600, funds deposited in the investment pool by the County, all County school districts, various special districts, and some cities within the County. The County investment pool is not registered with the Securities and Exchange Commission as an investment company. California Government Code and the County Investment Policy govern the investment pool activity. The objectives of the policy are in order of priority, safety, liquidity, yield and public trust. The pool attempts to match maturities with planned outlays and maximize the return on investment over various market cycles. Yield is considered only after safety and credit quality have been met, consistent with limiting risk and prudent investment principles.

The Board of Supervisors monitor and review the management of public funds maintained in the investment pool in accordance with Article 6 Section 27131 of the California Government Code. The Board of Supervisors review and approve the investment policy annually. The County Treasurer prepares and submits a comprehensive investment report to the members of the Board of Supervisors and the investment pool participants every month. The report covers the type of investments in the pool, maturity dates, par value, actual cost and fair value. All cash and investments, with the exception of deposits with fiscal agents, are considered part of the investment pool.

**Notes to Basic Financial Statements**  
**For the Year Ended June 30, 2023**

**NOTE 3: CASH AND INVESTMENTS (CONTINUED)**

The County sponsored investment pool includes both internal and external participants. The portion of the pool attributable to external pool participants, which are considered involuntary participants, are included in the primary government as Investment Trust Funds which do not have separate financial reports. The State of California statutes require certain special districts and other governmental entities to maintain their cash surplus with the County Treasurer. The investments of involuntary participants in the investment pool totaled \$91,301,525 at June 30, 2023.

**A. Financial Statement Presentation**

As of June 30, 2023, the County's cash and investments are reported in the financial statements as follows:

Primary government	\$ 108,635,970
Investment trust funds	91,301,525
Custodial funds	<u>7,008,798</u>
Total Cash and Investments	<u><u>\$ 206,946,293</u></u>

As of June 30, 2023, the County's cash and investments consisted of the following:

Cash:	
Cash on hand	\$ 17,731
Deposits (less outstanding checks)	<u>10,443,387</u>
Total Cash in County Pool	10,461,118
Deposits with fiscal agents	<u>10,295,436</u>
Total Cash	<u>20,756,554</u>
Investments:	
In Treasurer's Pool	<u>186,189,739</u>
Total Investments	<u>186,189,739</u>
Total Cash and Investments	<u><u>\$ 206,946,293</u></u>

**B. Cash**

At year end, the carrying amount of the County's cash deposits (including amounts in checking accounts, money market accounts and deposits with fiscal agents) was \$20,738,823 and the bank balance was \$24,783,849. The difference between the bank balance and the carrying amount represents outstanding checks and deposits in transit. In addition, the County had cash on hand of \$17,731.

Custodial Credit Risk for Deposits - Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the County will not be able to recover its deposits or collateral securities that are in the possession of an outside party. The County's investment policy requires that deposits in banks must meet the requirements of the California Government Code. Under this code, deposits of more than \$250,000 must be collateralized at 105 percent to 150 percent of the value of the deposit to guarantee the safety of the public funds. The first \$250,000 of the County's deposits are insured by the Federal Deposit Insurance Corporation (FDIC). Deposits of more than the \$250,000 insured amount are collateralized.

**COUNTY OF PLUMAS**

**NOTE 3: CASH AND INVESTMENTS (CONTINUED)**

**C. Investments**

Pursuant to Section 53646 of the Government Code, the County prepares an investment policy annually and presents it to the Board of Supervisors for review and approval. The investment policy provides the basis for the management of a prudent, conservative investment program. Funds are invested to provide the maximum security of principal with secondary emphasis on achieving the highest return, while meeting daily cash flow needs. All investments are made in accordance with the Government Code and, in general, the investment policy is more restrictive than state law.

Under the provisions of the County's investment policy the County may invest or deposit in the following:

U.S. Treasuries  
Federal Agency or United States government-sponsored enterprise obligations  
Obligations of the State of California or any local agency within the State  
Registered Treasury Notes or Bonds of any of the other 49 states in addition to California  
Bankers' Acceptances  
Repurchase Agreements  
Commercial Paper  
Time Certificates of Deposit  
Negotiable Certificates of Deposit  
Medium-Term Notes  
Shares of Beneficial Interest  
State of California Local Agency Investment Fund (LAIF)  
Asset-Backed Securities  
Supranationals  
California Asset Management Program (CAMP)

Fair Value of Investments - The County measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy as follows:

- Level 1: Quoted prices for identical investments in active markets;
- Level 2: Observable inputs other than quoted market prices; and,
- Level 3: Unobservable inputs

The County's position in external investment pools is in itself regarded as a type of investment and looking through to the underlying investments of the pool is not appropriate. Therefore, the County's investment in external investment pools is not recognized in the three-tiered fair value hierarchy described above.

**Interest Rate Risk -** Interest rate risk is the risk of loss due to the fair value of an investment falling due to interest rates rising. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. To limit the exposure to fair value losses from increases in interest rates, the County's investment policy limits investment maturities to a term appropriate to the need for funds so as to permit the County to meet all projected obligations. Any investments that mature more than five years from the date of purchase require prior approval of the Board of Supervisors.

As of June 30, 2023, the County had the following investments, all of which had a maturity of 5 years or less:

Investment Type	Interest Rates	Maturities		Fair Value	Weighted Average Maturity (Years)
		0-1 year	1-5 years

**Credit Risk -** Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The County's investment policy sets specific parameters by the type of investment to be met at time of purchase. **C. Investments (Continued)**

**Custodial Credit Risk** - Custodial credit risk for investments is the risk that, in the event of the failure of a depository financial institution, the County will not be able to recover its deposits or collateral securities that are in the possession of an outside party. To mitigate the custodial credit risk the County requires that all of its managed investments be held in safekeeping by a third-party bank trust department.

**Concentration of Credit Risk** - Concentration of credit risk is the risk of loss attributed to the magnitude of the County's investment in a single issuer of securities. When investments are concentrated in one issuer, this concentration presents a heightened risk of potential loss. The County's investment policy contains limitations on the amount that can be invested in any one issuer. Investments in any one issuer (other than U.S. Treasury Securities, mutual funds, and external investment pools) at June 30, 2023, did not exceed five percent or more of total County investments.

**D. Investment in External Investment Pools**

The County of Plumas maintains an investment in the State of California Local Agency Investment Fund (LAIF), managed by the State Treasurer. This fund is not registered with the Securities and Exchange Commission as an investment company, but it is required to invest according to California State Code. The Local Investment Advisory Board (Board) has oversight responsibility for LAIF. The Board consists of five members as designated by State Statute. At June 30, 2023, the County's investment in LAIF valued at amortized cost was \$63,375,249 and is the same as the value of the Pool shares. There are no restrictions on withdrawal of funds. The total amount invested by all public agencies in LAIF on that day was \$178.4 billion. Of that amount, 98.54 percent is invested in non-derivative financial products and 1.46 percent in structured notes and asset-backed securities.

The County of Plumas also maintains an investment in the California Asset Management Program (CAMP), a California Joint Powers Authority established in 1989 by the treasurers and finance directors of several California agencies. CAMP was created to provide professional investment services to California public agencies at a reasonable cost. The County's investment with CAMP as of June 30, 2023, was \$88,233,400, which approximates fair value. There are no restrictions on withdrawal of funds.

**NOTE 4: LEASES RECEIVABLE**

The County leases its facilities to private and corporate companies and aircraft users for office space, airport hangar and land leases. The lease terms are two to 25 years, including the noncancelable period of the lease and extensions the County is reasonably certain to exercise and vary with each contract. The agreements allow for 2.5% annual increases to the lease payments on the anniversary of the agreement. During the fiscal year, the County recognized \$139,779 in lease revenue and \$52,641 in interest income related to these agreements. At June 30, 2023, the County recorded \$1,918,534 in leases receivable for these agreements. Also, the County has deferred inflows of resources associated with these leases that will be recognized as revenue over the lease terms. As of June 30, 2023, the balance of deferred inflows of resources was \$1,918,534.

A summary of leases receivable for the year ended June 30, 2023, was as follows:

**NOTE 9: LEASES**

**Right-to-Use Leases**

The County entered into noncancelable leases with various third parties. Current lease activities include the right-to-use office space, land lease and other equipment. The County is required to make principal and interest payments through July 2033. The lease agreements have interest rates between 2% and 5% based on the borrowing rate specified in the contract. The County also paid operating expenses which are not included in the measurement of the lease liability as they are variable in nature. At June 30, 2023, the County has recognized a lease liability of \$724,255. Refer to Note 5, Capital Assets, for information related to the right-to-use assets accounted for through these leases. During the fiscal year, the County recorded \$137,557 in amortization expense and \$27,481 in interest expense for these arrangements.

The future principal and interest payments on leases as of June 30, 2023, are as follows:

Year Ended June 30	Governmental Activities		
	Principal	Interest	Total
2024	\$ 122,059	\$ 24,575	\$ 146,634

Total	\$ 724,255	\$ 102,259	\$ 826,514

**Subscription-Based Information Technology Arrangements**

The County has four Subscription-Based Information Technology Arrangements (SBITA), which meet the criteria as defined by GASB Statement No. 96, Subscription-Based Information Technology Arrangements.

The County has four active subscriptions. The subscriptions have payments that range from \$4,770 to \$45,907 and interest rates that range from 3.00% to 5.00%. As of June 30, 2023, the total combined value of the subscription liability was \$227,154. The value of the subscription-based information technology arrangement assets and accumulated amortization as of June 30, 2023, was \$345,346 and \$118,362, respectively.

The future principal and lease payments as of June 30, 2023, are as follows:

**Notes to Basic Financial Statements**  
**For the Year Ended June 30, 2023**

**NOTE 10: CLOSURE/POST-CLOSURE**

The County of Plumas is responsible for one operating and one closed landfill site. State and Federal laws and regulations require the County to perform certain closure and post-closure maintenance and monitoring functions at the site for thirty years after closure. GASB Statement No. 18 requires that a portion of these closure and post-closure care costs be reported as an operating expense in each year based on landfill capacity used as of each Statement of Net Position date. The \$4,255,871 reported as a closure/post-closure liability at June 30, 2023, represents the cumulative amount reported to date based on the estimates used ranging from 45 to 100 percent of total permitted site capacity filled.

The County will recognize the remaining estimated cost of closure and post-closure care of \$4,255,871 as the remaining estimated capacity is filled. These amounts are based on what it would cost to perform all closure and post-closure care in 2023. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

The County is required by State and Federal laws and regulations to provide financial assurance that appropriate resources will be available to finance closure and post-closure care costs in the future. At June 30, 2023, cash and investments of \$3,271,708 were held to fund closure costs. This deposit is held in the Solid Waste Planning and Operation enterprise fund. The County has approved a pledge of revenue to fund the post-closure costs. The County expects that future inflation costs will be paid from interest earnings on these annual contributions. However, if interest earnings are inadequate or additional post-closure care requirements are determined (due to changes in technology or applicable laws or regulations, for example) these costs may need to be covered by charges to future landfill users or from future tax revenue.

**NOTE 11: NET POSITION**

The government-wide and proprietary fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted.

- **Net investment in capital assets** - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- **Restricted net position** - consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. These principally include restrictions for capital projects, debt service requirements and other special revenue fund purposes
- **Unrestricted net position** - all other net position that does not meet the definition of “restricted” or “net investment in capital assets”.

**Net Position Restricted by Enabling Legislation**

The government-wide Statement of Net Position reports \$70,244,143 restricted net position, of which there is no net position restricted by enabling legislation.

**COUNTY OF PLUMAS**  
**Notes to Basic Financial Statements**  
**For the Year Ended June 30, 2023**

**NOTE 11: NET POSITION (CONTINUED)**

**Net Position Flow Assumption**

When a government funds outlays for a particular purpose from both restricted and unrestricted resources, a flow assumption must be made about the order in which the resources are considered to be applied. When both restricted and unrestricted net position are available, it is considered that restricted resources are used first, followed by the unrestricted resources.

**NOTE 12: FUND BALANCES**

As prescribed by GASB Statement No. 54, governmental funds report fund balance in classifications based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. Fund balances for governmental funds can be made up of the following:

- **Nonspendable fund balance** - amounts that cannot be spent because they are either (a) not in spendable form, or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example: inventories and prepaid amounts.
- **Restricted fund balance** - amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation. Restrictions may effectively be changed or lifted with the consent of resource providers.
- **Committed fund balance** - amounts that can only be used for the specific purposes determined by formal action of the County’s highest level of decision-making authority. The Board of Supervisors is the highest level of decision-making authority for the County that can, by adoption of an ordinance, commit fund balance. Once adopted, the limitation imposed remains in place until a similar action is taken to remove or revise the limitation. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
- **Assigned fund balance** - amounts that are constrained by the County’s intent to be used for specific purposes. The intent can be established at either the highest level of decision-making authority, or by a body (i.e., budget or finance committee) or an official designated for that purpose.
- **Unassigned fund balance** - the residual classification for the County’s General fund that includes all amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

**Fund Balance Flow Assumption**

When a government funds outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance), a flow assumption must be made about the order in which the resources are considered to be applied. When both restricted and unrestricted fund balance are available, it is considered that restricted fund balance is depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

**Fund Balance Policy**

The Board of Supervisors adopted a fund balance policy on May 17, 2011, for financial statement reporting. The policy establishes procedures for reporting fund balance classifications, establishes prudent reserve requirements and establishes a hierarchy of fund balance expenditures. The policy also provides for a measure of financial protection for the County against unforeseen circumstances and to comply with GASB 54. The minimum unrestricted fund balance may be recognized within the committed, assigned, or unassigned classifications.

**NOTE 13: PENSION PLAN**

**A. General Information about the Pension Plan**

**Plan Description**

All qualified permanent and probationary employees of Plumas County and Plumas Court are eligible to participate in the County's Safety cost-sharing multiple-employer defined benefit pension plan and Miscellaneous agent multiple-employer defined benefit pension plan (Plan), administered by the California Public Employees' Retirement System (CalPERS), which acts as a common investment and administrative agent for participating member employers. Benefit provisions under the Plan are established by State statute and County resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Effective January 1, 2013, the County added retirement tiers for both the Miscellaneous and Safety Rate Tiers for new employees as required under the Public Employee Pension Reform Act (PEPRA). New employees hired on or after January 1, 2013, will be subject to new, lower pension formulas, caps on pensionable income levels and new definitions of pensionable income. In addition, new employees will be required to contribute half of the total normal cost of the pension benefit unless impaired by an existing Memorandum of Understanding. The cumulative effect of those PEPRA changes will ultimately reduce the County's retirement costs.

**Benefits Provided**

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 (age 52 for Miscellaneous Plan members if membership date is on or after January 1, 2013) with statutorily reduced benefits. Retirement benefits are paid monthly for life. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for the plan are applied as specified by the Public Employees' Retirement Law.

Each Rate Tier's specific provisions and benefits in effect at June 30, 2023, are summarized as follows:

	<u>Benefit Formula</u>	<u>Retirement Age</u>	<u>Monthly Benefits as a % of Eligible Compensation</u>
Miscellaneous	2.0% @ 55	50-67	1.426% to 2.418%
Miscellaneous PEPRA	2.0% @ 62	52-67	1.000% to 2.500%
Safety Sheriff	3.0% @ 55	50-55	2.400% to 3.000%

**Contributions**

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for all Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The County is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

	<u>Employer Contribution Rates</u>	<u>Employee Contribution Rates</u>	<u>Employer Paid Member Contribution Rates</u>
Miscellaneous	8.840%	7.000%	4.000%
Miscellaneous PEPRA	8.840%	7.250%	0.000%
Safety Sheriff	22.480%	9.000%	2.000%
Safety County Peace Officer	0.000%	0.000%	2.000%
Safety Sheriff PEPRA	13.660%	13.750%	0.000%

For the year ended June 30, 2023, the contributions recognized as part of pension expense for the Plan were as follows:

	<u>Contributions-Employer</u>	<u>Contributions-Employee (Paid by Employer)</u>
Miscellaneous	\$ 5,199,435	\$ -
Safety	1,712,231	-

**B. Net Pension Liability**

The County's net pension liability for the Plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability of the Plan is measured as of June 30, 2022, using an annual actuarial valuation as of June 30, 2021, rolled forward to June 30, 2022, using standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is shown below.

**COUNTY OF PLUMAS**  
**Notes to Basic Financial Statements**  
**For the Year Ended June 30, 2023**

**NOTE 13: PENSION PLAN (CONTINUED)**

**B. Net Pension Liability (Continued)**

**Actuarial Assumptions**

The total pension liabilities in the June 30, 2021, actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	June 30, 2021
Measurement Date	June 30, 2022
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	6.90%
Investment Rate of Return	6.90%
Inflation	2.30%
Salary Increase	Varies by entry-age and service
Mortality Rate Table	Derived using CalPERS' membership data for all funds
Post-Retirement Benefit Increase	Contract COLA up to 2.30% until Purchasing Power Protection Allowance Floor on Purchasing Power applies

The mortality table used was developed based on CalPERS-specific data. The probabilities of mortality are based on the 2021 CalPERS Experience Study for the period of 2001 to 2019. Pre-retirement and post-retirement mortality rates include generational mortality improvement using 80% Scale MP-2020 published by the Society of Actuaries. For more details on this table, please refer to the CalPERS Experience Study and Review of Actuarial Assumptions from November 2021 that can be found on the CalPERS website.

**Discount Rate**

The discount rate used to measure the total pension liability was 6.90 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Long-Term Expected Rate of Return**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

**NOTE 13: PENSION PLAN (CONTINUED)**

**B. Net Pension Liability (Continued)**

**Long-Term Expected Rate of Return (Continued)**

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flow. Using historical returns for all of the funds' asset classes, expected compound (geometric) returns were calculated over the next 20 years using a building-block approach. The expected rate of return was then adjusted to account for assumed administrative expenses of 10 basis points. The expected real rates of return by asset class are as follows:

<u>Asset Class</u>	<u>Assumed Asset Allocation</u>	<u>Real Return Years 1-10 (1, 2)</u>
Global Equity – Cap-Weighted	30.0%	4.54%
Global Equity – Non-Cap-Weighted	12.0%	3.84%
Private Equity	13.0%	7.28%
Treasury	5.0%	0.27%
Mortgage-backed Securities	5.0%	0.50%
Investment Grade Corporates	10.0%	1.56%
High Yield	5.0%	2.27%
Emerging Market Debt	5.0%	2.48%
Private Debt	5.0%	3.57%
Real Assets	15.0%	3.21%
Leverage	( 5.0%)	( 0.59%)
Total	<u><u>100.0%</u></u>

As of June 30, 2023, the County reported a net pension liability for its proportionate share of the net pension liability of the cost-sharing multiple-employer defined benefit pension plan as follows:

	Proportionate Share of Net Pension Liability
Safety	\$ 15,227,581
Total Net Pension Liability	<u>\$ 15,227,581</u>

The County's net pension liability for the cost-sharing multiple-employer defined benefit pension rate tier is measured as the proportionate share of the net pension liability. The net pension liability of the rate tier is measured as of June 30, 2022, and the total pension liability for the rate tier used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021, rolled forward to June 30, 2022, using standard update procedures. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The County's proportionate share of the net pension liability for the cost-sharing multiple employer-defined benefit pension plan as of June 30, 2022, and 2023, was as follows:

	Proportion June 30, 2023	Proportion June 30, 2022	Change - Increase (Decrease)

**NOTE 14: OTHER POSTEMPLOYMENT BENEFITS (OPEB)**

**A. General Information about the OPEB Plan**

**Plan Description**

The County's defined benefit OPEB plan (the Plan) provides retiree healthcare benefits to qualifying employees retiring directly from the County. The benefit level is determined by date of hire, length of service and bargaining unit. The County has two insurance companies, determined by bargaining unit; it contracts for medical coverage to be provided through agency multiple-employer CalPERS Health and Operating Engineer's Health plans. Vision and dental coverage is contracted separately for the employees being covered by CalPERS Health, whereas Operating Engineer's include vision and dental coverage through their health plan.

**Benefits Provided**

The County provides post-employment health benefits to eligible employees at retirement. The plans available and the County's financial obligation vary by employee group as summarized below:

*Confidential Employees*

Eligible employees may continue health (medical, dental and vision) coverage at retirement. Medical coverage is available through the CalPERS Health Program. Eligibility requires retirement under PERS (at least age 50 with at least 5 years of service). For employees with at least 15 years but less than 25 years of continuous County service at retirement, the County will contribute 25 percent of the County's health premium for an active employee. For employees with at least 25 years of continuous County service at retirement, the County will contribute 50 percent of the County's health premium for an active employee. The current County's contributions for an active employee are: \$624.60 for single coverage, \$1,260.90 for the two-party coverage and \$1,630.56 for family coverage.

**Benefits Provided (Continued)**

The County's contribution for retiree health coverage will continue until age 65 at which time the retiree may continue on a self-pay basis. The County will continue to pay the CalPERS minimum required contribution for retirees and surviving spouses continuing coverage post age 65. If the retiree dies before attainment of age 65, the spouse may continue coverage on a self-pay basis.

*Sheriff & Sheriff Management*

Eligible employees may continue health (medical, dental and vision) coverage at retirement. Medical coverage is available through the CalPERS Health Program. Eligibility requires retirement under PERS (at least age 50 with at least 5 years of service). For employees with at least 15 years but less than 25 years of continuous County service at retirement, the County will contribute 25 percent of the County's health premium for an active employee. For employees with at least 25 years of continuous County service at retirement, the County will contribute 50 percent of the County's health premium for an active employee. The current County's contributions for the PORAC plan for an active employee are \$622.44 for single coverage, \$1,260.90 for two-party coverage and \$1,630.56 for family coverage.

The County's contribution for retiree health coverage will continue until age 65 at which time the retiree may continue on a self-pay basis. The County will continue to pay the CalPERS minimum required contribution for retirees and surviving spouses continuing coverage post age 65. If the retiree dies, the spouse may continue coverage on a self-pay basis.

*Probation Department Employees*

Eligible employees may continue health (medical, dental and vision) coverage at retirement. Medical coverage is available through the CalPERS Health Program. Eligibility requires retirement under PERS (at least age 50 with at least 5 years of service). For employees with at least 15 years but less than 25 years of continuous County service at retirement, the County will contribute 25 percent of the County's health premium for an active employee. For employees with at least 25 years of continuous County service at retirement, the County will contribute 50 percent of the County's health premium for an active employee. The current County's contributions for the PORAC plan for an active employee are: \$624.60 for single coverage, \$1,260.90 for two-party coverage and \$1,630.56 for family coverage. These contributions are scheduled to increase to the same contribution level as General employees.

The County's contribution for retiree health coverage will continue until age 65 at which time the retiree may continue on a self-pay basis. The County will continue to pay the CalPERS minimum required contribution for retirees and surviving spouses continuing coverage post age 65. If the retiree dies before attainment of age 65, the spouse may continue coverage on a self-pay basis.

The current County's contributions for an active employee are: \$624.60 for single coverage, \$1,248.30 for two-party coverage and \$1,486.00 for family coverage.

The County's contribution for retiree health coverage will continue until age 65 at which time the retiree may continue on a self-pay basis. The County will continue to pay the CalPERS minimum required contribution for retirees and surviving spouses continuing coverage post age 65. If the retiree dies, the spouse may continue coverage on a self-pay basis.

*General Unit, Crafts & Trade and Mid-Management*

Eligible employees may continue health (medical, dental and vision) coverage at retirement. Coverage is provided through the Operating Engineers Public and Miscellaneous Employees Health and Welfare Plan. Eligibility requires retirement under PERS (at least age 50 with at least 5 years of service). For employees with at least 15 years but less than 25 years of continuous County service at retirement, the County will contribute 25 percent of the County's health premium for an active employee. **Benefits Provided (Continued)**

*Sick Leave\**

All eligible employees may convert a portion of their unused sick-leave upon retirement to be used for the employee's portion of the retiree health contribution. The portion convertible depends on the employee's years of continuous service at retirement as follows:

<u>Years of Continuous Service</u>	<u>Percent of Sick Value</u>
0 to 5 Years of Service	25% of hours on the books
5 to 10 Years of Service	50% of hours on the books
10 to 15 Years of Service	75% of hours on the books
15 or More Years of Service	100% of hours on the books

The conversion to monies is based on rate of pay at retirement except for elected officials no longer earning sick leave (based on frozen rate of pay). Upon death of the retiree, the spouse may use any unused sick-leave monies to pay any applicable contributions for surviving spouse coverage. Any unused sick-leave monies remaining in the event of the death of the retiree and their surviving spouse shall be forfeitable to the County.

*\*Liability for sick leave accruals that may be converted to monies the retiree may use for health insurance contributions are not included in the valuation.*

Premium Rates

The County participates in the CalPERS Health Program and the Operating Engineers Public and Miscellaneous Employees Health and Welfare Plan, both community-rated programs. The later program includes dental and vision coverage. Employees in the CalPERS Health Program are eligible for a separate dental and vision plan. The following table summarizes the current monthly premiums for the primary plans in which the retirees are enrolled.

Employee Groups on the CalPERS Health Program

Interim year valuation results have been projected from the prior year's valuation, with adjustments for actual premium increases for the health plans from 2022/23 to 2023/24. The impact of this change was an increase in liabilities.

**Contributions**

The County is funding a portion of the actuarially determined contribution (ADC) and also does not reimburse for its current retiree payments from the Trust. The ADC consists of the normal cost plus an amortization of the net (unfunded accrued) OPEB liability.

**B. Net OPEB Liability**

The County's net OPEB liability of \$4,309,106, was measured as of June 30, 2023, and was determined by the actuarial valuation as of July 1, 2022.

**Actuarial Assumptions and Other Inputs**

The net OPEB liability in the July 1, 2022, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Valuation Date	July 1, 2022
Cost Method	Allocation of Actuarial Present Value of Future Benefits for services prior and after the Measurement Date was determined using Entry Age, Normal Level % of Salary method where: <ul style="list-style-type: none"> <li>• Service Cost for each individual participant, payable from date of employment to date of retirement, is sufficient to pay for the participant's benefit at retirement; and</li> <li>• Annual Service Cost is a constant percentage of the participant's salary that is assumed to increase according to the Payroll Growth.</li> </ul>
Discount Rate	6.30% as of June 30, 2023, and 6.15% as of June 30, 2022
Inflation	2.75% per year
Payroll Growth	2.80% per year
Healthcare cost trend rates	See table below

Year	CalPERS PPOs

**NOTE 15: RISK MANAGEMENT**

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County has Risk Management Funds (internal service funds) to account for and finance its uninsured risks of loss for general liability and worker's compensation. The County self-insures its general liability claims with a retention of \$100,000 per occurrence. It is the policy of the County to have the reserves evaluated by independent actuaries. The last actuarial evaluation was performed as of October 2012, for liability and workers' compensation.

The claims liability of the County is based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

The claims liability accrued on the financial statements for liability and workers' compensation is the ultimate cost of claims and expenses associated with all reported and unreported claims including allocated loss adjustment expenses (ALAE) and unallocated loss adjustment expenses (ULAE) reduced by a discount for anticipated investment income.

**COUNTY OF PLUMAS**  
**Notes to Basic Financial Statements**  
**For the Year Ended June 30, 2023**

**NOTE 15: RISK MANAGEMENT (CONTINUED)**

Actual claims liability at June 30, 2023, was as follows:

Liability	\$ 231,565
Property	240,580
Medical Malpractice	2,300
Workers' Compensation	<u>5,964,527</u>
Total	<u><u>\$ 6,438,972</u></u>

All funds of the County participate in the program and make payments to the risk management funds based on actuarial estimates of the amounts needed to pay prior and current year claims and to establish a reserve for catastrophic losses. At June 30, 2023, the Workers' Compensation/Liability Insurance risk management fund had a funding surplus of \$4,238,678.

Changes in the County's estimated claims liability amount for the fiscal years 2021, 2022, and 2023, were as follows:

<u>Fiscal Year Ended</u>	<u>Balance at Beginning of Fiscal Year</u>	<u>Current Year Claims</u>	<u>Claims Payments and Changes In Estimates</u>	<u>Balance at End of Fiscal Year</u>
2021	\$ 5,118,013	\$ 1,264,843	\$ 1,564,293	\$ 4,818,563
2022	4,818,563	1,608,190	2,456,745	3,970,008
2023	3,970,008	2,914,927	445,963	6,438,972

**NOTE 16: OTHER INFORMATION**

**A. Commitments and Contingencies**

At June 30, 2023, the County had construction commitments outstanding of approximately \$12,090,362.

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

The County is a defendant in various lawsuits. In the aggregate, these claims seek monetary damages in significant amounts. To the extent the outcome of such litigation has been determined to result in probable loss to the County, the loss has been accrued in the accompanying financial statements. Litigation where loss to the County is reasonably possible has not been accrued. All legal matters are covered by the County's liability program which, subject to a \$100,000 deductible per occurrence, provides complete coverage for County liability losses. Therefore, no provision has been made in the financial statements for a loss contingency.

**B. Subsequent Events**

Management has evaluated events subsequent to June 30, 2023, through December 12, 2025, the date on which the financial statements were available for issuance. Management has determined no subsequent events requiring disclosure have occurred.

**Note to Budgetary Comparison Schedules**  
**For the Year Ended June 30, 2023**

**NOTE 1: BUDGETARY BASIS OF ACCOUNTING**

Formal budgetary integration is employed as a management control device during the year. The County presents a comparison of annual budget to actual results for the County's General and major special revenue funds. There were no expenditures in and the County did not adopt a budget for the Pacific Gas and Electric Dixie Fire Settlement major special revenue fund. The amounts reported on the budgetary basis are generally on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).

In accordance with the provisions of Sections 29000 and 29143, inclusive, of the California Government Code and other statutory provisions, commonly known as the County Budget Act, the County prepares a budget for each fiscal year on or before August 30. Budgeted expenditures are enacted into law through the passage of an Appropriation Resolution. This resolution mandates the maximum authorized expenditures for the fiscal year and cannot be exceeded except by subsequent amendments to the budget by the County's Board of Supervisors.

The following procedures are performed by the County in establishing the budgetary data reflected in the financial statements:

- (1) The Budget Consultant (an independent contractor) submits to the Board of Supervisors a recommended budget for the fiscal year commencing the following July 1. The budget includes recommended expenditures and the means of financing them.
- (2) The Board of Supervisors reviews the recommended budget at regularly scheduled meetings, which are open to the public. The Board also conducts a public hearing on the recommended budget to obtain comments from interested persons.
- (3) Prior to July 1, the budget is adopted through the passage of a resolution.
- (4) From the effective date of the budget, which is adopted and controlled at the department level, the amounts stated therein, as recommended expenditures become appropriations to the various County departments. The Board of Supervisors may amend the budget by motion during the fiscal year. The County Auditor-Controller may authorize transfers from one object or purpose to another within the same department.

The County does not use encumbrance accounting under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation.
