*"As counties may be aware, the Federal Communications Commission (FCC) recently released a draft Declaratory Ruling and Third Report and Order, aimed at accelerating the deployment of*

next-generation 5G wireless networks. The wireless telecommunications industry is now pursuing many of the same preemptions of local government authority that they unsuccessfully sought in California in 2017 via SB 649 (Hueso)-including capped rates for pole attachments and limitations on reasonable local government review."

Wilson adds that staff is reviewing these items to determine how to give direction to the Commission now that the public hearing has been set for the draft Telecommunications Ordinance.

The Board of Supervisors held a public hearing on Tuesday, October 16<sup>th</sup> and waived the first reading of the SRA Regulations (amendment to Plumas County Code) with adoption to come on October 23<sup>rd</sup>.
