

April 9, 1998

Plumas County Engineering Department  
County of Plumas  
520 Main Street, Room 120  
Quincy Ca, 95971-9377

Attention Sr. Eng. Tech. John Pullan:

Dear John:

After further review of the field work and calculations associated with the position of monuments set under corner record forms document numbers 118,119,120 and 121, I concur with your office that the corner record form is inappropriate for this activity.

As I discussed with your office, on April 6 & 7, 1998 I removed all the points covered in the above corner records except the following: On document 119 the PK nail set for point 1652 and the rebar set for point 1657 were not found. On document 120 the rebar set for point 591A was not found. On document 121 the rebar set for point 1206A was not found. A diligent search was made for each of them. They may have been disturbed by grading, snow removal or another outside agency. If any of these points are recovered in the future, by this letter, I give my permission that they may be removed.

Your office may nullify, supersede or otherwise cancel documents 118,119, 120 and 121. I hope this will not cause a large disruption in your record keeping.

Please feel free to share this letter with any interested party. And once again, I regret any inconvenience this may have caused your office.

Please call me at (916) 923-7004, if you wish, to discuss this matter further.

Sincerely

A handwritten signature in blue ink that reads "Don P. Messman". The signature is fluid and cursive, with "Don" and "P." being more stylized and "Messman" being more clearly legible.

Don P. Messman LS 5949
