None

INFORMATION SYSTEMS TECHNICIAN – 2

EXAMPLES OF DUTIES:

- Acts as a resource person for users by answering questions either by phone or in person and resolving problems related to the use, application and operation of automated information systems.
- Diagnoses problems to determine if the cause is due to the system, software, hardware or other source and corrects them. Refers more difficult problems to appropriate personnel or vendors.
- Sets up, monitors, installs and repairs computer hardware and installs software including state or federal provided operating systems, word processing, database, spreadsheet and other software.
- Writes or assists in writing and revising procedures, instructional materials and staff development tools for system related training.
- Trains system users on hardware and software usage; explains operating systems and provides on-going support for department staff; may provide training on specific statewide automated systems utilized by assigned department.
- Researches regulations, procedures and/or technical reference materials as necessary.
- Meets with staff regarding systems usage, improvements, modifications, maintenance and operations needed for an efficient computer system.
- Works with computer support personnel in identifying problems with the system, programs, PC's or printers. Documents and tracks system problems and writes the reports on issues. Recommends necessary hardware and software changes; and performs system upgrades.
- Authorizes system access to new users, assigns users a profile and password.
- Performs related duties as assigned
