- NOTE:**
- The purpose of this survey is to show the Northerly line of the Lands of Sieber that are affected by the recovery of a 2" iron pipe that appears to be the original corner of WPRR in 72 deeds 497.
  - The Record distance in 72 Deeds 497 from the SW corner of the WPRR parcel to the section line (225.30')R2 appears to verify that the monument recovered was the original monument and that the record deed bearing along the southerly course of S 87°29'30"E should have been S 87°29'30"W.
  - The existing County Road 416A centerline is shown for informational purposes.
  - 1 RS 91 indicated a distance of 135' to center of creek. A tie was made to center of bridge (145'), said tie appears to verify corner location.
