

Donation List for Our Lending Library

The Quincy Branch of Plumas County Library is running a pilot program for a tool lending library. We are looking for donations – due to available room limitations please do not donate anything bigger than 2 feet long. Please bring items to the front desk of the Quincy Branch during open library hours. Thank you.

Note: Because of limitations of space, money, and staff, the library does reserve the right to accept or discard, at its discretion, any donated materials. All donations become the sole property of the Library. Donation forms for reporting purposes are available upon request.
