CALAMITY APPLICATION FOR REASSESSMENT

You may qualify for a reduction or refund of property taxes if property you own (or are responsible for the property taxes) was damaged or destroyed.

To qualify for a possible reassessment, **all** of the following requirements must be met:

- The damage must have occurred within the past year.*
- The physical damage to the **taxable property** must be more than \$10,000 in value. You can attach an insurance company estimate as evidence for your claim.
- The damage must have occurred by 'misfortune or calamity' such as a fire, flood, accident, etc. The damage cannot have been the fault of the owner. (Demolition does not qualify.)
- You may file the application if you are listed as the owner on the assessment roll, or if you are responsible for paying the property taxes.
- The application **must** be postmarked or returned to the Assessor's Office no later than one year after the date of damage.*
- The application is signed under the penalty of perjury. If you sign it outside the State of California, the application must be verified by affidavit.

If you meet **all** of the above requirements, your property will be reassessed to reflect the percentage of loss due to the misfortune or calamity. If you do not meet these requirements, do not file an application.

*If your property was damaged more than 1 year ago, and was still in damaged condition the following January 1, contact our office.

- If your principal place of residence, it must have suffered damage of at least 10% of its fair market value.
- For other types of property, must have suffered damage of at least 20% of fair market value.
