Bureau of Land Management, Esri, HERE, Garmin, INCREMENT ... Powered by Esri

# Phase 2

## Ash and Structural Debris Removal

If qualifying structure of 120 sq ft or more...

- \* Option 1: Right of Entry (government) program
- \* Option 2: Alternate (private) program

**With either option, the cleanup standards are the same**

# Phase 2 Cleanup Steps

- \* Asbestos Certification (and removal as necessary)
- \* Debris Removal, Disposal, and Recycling (no local disposal options)
- \* Soil Scraping to Remove Contaminants
- \* Erosion Control
- \* Soil Confirmation Sampling (and heavy metals testing)
- \* Hazard Tree Removal
- \* Submit Documentation and Final Report
- \* Receive Certificate of Completion
- \* Issue Building Permit!

# ROE Program

1. Property owners must sign up
2. Coordinate insurance benefits
3. No out-of-pocket expense for property owner
4. State contractors perform all work under state oversight

# Alternate Program

1. Property owners must sign up.
2. Property owners manage their own cleanup but must hire contractor.
3. Insurance or privately funded.
4. Disposal in Anderson or Wheatland
5. Environmental Health oversight
6. Details still being developed

# Self-Cleanup

IF a property has no qualifying structures (120 sq ft)...

1. Not eligible for ROE program
2. Owners or contractor can do work
3. Basic cleanup standards
4. Details for disposal still being developed
