DIRECTOR

PRESS RELEASE

FOR IMMEDIATE RELEASE
07/02/2022

On 6/28/2022, we first became aware of possible tampering to Indian Valley Community Services District infrastructure. This report includes the possible tampering to a sewage pump in Taylorsville, which resulted in a large sewage spill. The spill has been mitigated and the pumps repaired according to IVCSD.

As of today, according to IVCSD the drinking water provided to Crescent Mills and Greenville, has been tested several times and is SAFE to consume and there is no evidence the drinking water was ever compromised.

Our office is currently conducting an investigation into the reports received and anyone with any information is encouraged to contact us at 530-283-6300.
