

INFRASTRUCTURE RECOVERY SUPPORT FUNCTION (RSF)

Recovery Topics:

- Broadband and Telecommunications
- Emergency Alert Systems
- Roads
- Energy Systems
- Water Systems
- Wastewater and Septic Systems

Recovery Co-Chairs:

- Kevin Goss, Supervisor Dist. 2
- John Mannle, Public Works Director

Mission Statement

Perform activities for the restoration and rethinking of infrastructure systems and services impacted by the Beckwourth Complex Fire and Dixie Fire and to support a viable, sustainable, more resilient Plumas County.

Goals

The goals of the Infrastructure Systems RSF are to:

- Facilitate the integration of the capabilities of the state and federal government, as necessary, to support local and tribal governments, and other infrastructure owners and operators.
- Ensure the capacity of all infrastructure systems aligns with impacted communities' current and projected demand on its built and virtual environment.

Fire Impacts and Needs

Almost 15k cubic feet of public road damages in Greenville and Indian Falls¹

Greenville public buildings destroyed: Justice Court, Library, Town Hall, and Sheriff Substation¹

Over 1,000 utility poles destroyed²
