Re: PUBLIC COMMENT on request by US Copper Corp. for vested rights determination for the Engles/Superior Mines.

From: Debra Rasmussen, drasmussen73@yahoo.com

My name is Debra Rasmussen and I live in Butte County, CA. Having reviewed the Shute-Mihaly & Weinberger LLP document, attended the October County of Plumas meeting, and several online informational meetings held by Feather River Watershed Alliance relating to vested rights in Plumas County CA, I recommend that the Plumas County Zoning Administrator deny vested mining rights to US Copper based on the following; there simply has never been a vested right to mine for copper, gold, or silver on named property, named property is documented to be abandoned, and lastly US Copper failed to provide any burden of proof/evidence providing any actual retention of any past or current rights.

Thank you for this opportunity to submit my public comment to the record and thank you for your time.

Sincerely,

Debra S. Rasmussen
